SPD SELLER'S PROPERTY DISCLOSURE STATEMENT This form recommended and approved for, but not restricted to use by, the members of the Pennsylvania Association of RBALTORS (FAR). Bootjack Rd. Narvon P. 17555 V Marie Newswanger The Real Estate Seller Disclosure Law (68 P.S. §7301 et seq.) requires that a seller of a properly must disclose to a buyer all known material defects about the property being sold that are not readily observable. While the Law requires certain disclosures, this statement includes disclosures beyond the basic requirements of the Law in an effort to assist sollers in complying with seller disclosure requirements and to assist buyers in evaluating the property being considered. Sellers who wish to see or use the basic disclosure form can find the form on the Web site of the Pennsylvania State Real Estate Commission. This Statement discloses Seller's knowledge of the condition of the property as of the date signed by Seller and is not a substitute for any inspections or warranties that Buyer may wish to obtain. This Statement is not a warranty of any kind by Seller or a warranty or representation by any listing real estate broker, any selling real estate broker, or their licensees. Buyer is encouraged to 9 address concerns about the conditions of the property that may not be included in this Statement. This Statement does not relieve Seller of the obligation to disclose a material defect that may not be addressed on this form. Any non-exempt seller is obligated to 10 11 complete the disclosure form even if the seller does not occupy or has never occupied the property. For a list of exempt sellers, 12 see Information Regarding the Real Estate Seller's Property Disclosure Law found on the last page of this decument. 13 A Material Defect is a problem with a residential real property or any portion of it that would have a significant adverse impact on 14 the value of the property or that involves an unreasonable risk to people on the property. The fact that a structural element, system or subsystem is at or beyond the oud of the normal usoful life of such a structural element, system or subsystem is not by itself a mate-15 16 17 rial defect. Check yes, no, unknown (unk) or notapplicable (N/A) for each question. Be sure to check N/A when a question does not apply 18 to the property. Check unknown when the question does apply to the property but you are not sure of the answer. 19 20 (A) Does Soller possess expertise in contracting, engineering, architecture, environmental assessment No | Unk | NA | 1.
